The WSRP Consumer portlet

The WSRPConsumerPortlet owns a custom JSR 168 portlet mode called WSRP. It is available only while identified.

WSRPConsumerPortlet    

Configure a producer first

When you reach that mode, you will see the list of the registered producers (refer to WSRPAdminPortlet to learn how to register producers) with their associated remote portlets.

WSRPConsumerPortlet    

exo producer
