

## [DocV1.UserInfo](#)

### The UserInfo portlet

The portlet displays the user information and allows you to change it. In the default eXo Platform distribution, the user info portlet is added to the user portal page when you create a new user account.

The portlet contains two main tabs. The first tabs does just display the user information such as the home or business profile as well as an avatar (picture). The other tabs contains four sub tabs that allows you to modify the whole information.

The first tab is shown in the next screenshot:

The screenshot displays the 'Viewing User Profile' portlet. At the top, there are tabs for 'User profile', 'Profile Summary', and 'Admin'. The main content area is titled 'Viewing User Profile' and is divided into three sections:

- Personal Info**: Includes fields for Given Name, Family Name, Nick Name, Birthday, Gender, Employer, Department, and Job Title.
- User Home Info**: Includes fields for #, Street, City, State/Prov, Postal Code, Country, Mobile, Tel, Email, and Website.
- User Business Info**: Includes fields for #, City, State/Prov, Postal Code, Country, Mobile, Tel, Email, and Website.

A small avatar icon is visible on the right side of the profile.

When you move to the admin tab you will see 4 sub tabs:

- Personnal Info

User profile  

Profile Summary **Admin**

**Personal Info** Business Info Other Info Account Info

Personal Info

- Other Info

The other info includes the avatar URL and a signature text area. Those two, if filled, will be reused in the forum portlet and in other portlets such as the mail in the next versions.

The screenshot shows the 'User profile' page with the 'Admin' tab selected. The 'Other Info' tab is active, displaying two input fields: 'Avatar URL' and 'Signature'. Below the fields is a 'save' button.

- Account Info

That form allows you to change the most important information of your account, the one that are required for any account creation.

The screenshot shows the 'User profile' page with the 'Admin' tab selected. The 'Account Info' tab is active, displaying a 'New account' form with fields for 'User Name', 'Password' (two instances), 'First Name', 'Last Name', and 'Email'. Below the fields is a 'save' button.
